

19 Quality Assurance and Academic Integrity

1-day programme

Quality assurance is not just about compliance - it is about building programmes that genuinely serve students and withstand scrutiny. This programme helps academic teams strengthen their quality culture from the inside.

What you'll learn

- The principles of effective quality assurance in higher education
- How to design and moderate assessments that are fair and academically rigorous
- Building a culture of continuous improvement in your team or department
- Preparing effectively for external review and accreditation

Who is it for

Academic staff, programme leaders, and quality managers in universities, colleges, and professional education providers.

Duration

1-day programme

Outcomes

Teams leave with practical quality improvement tools and a shared commitment to academic integrity and continuous development.
